

Foundational Skills Assessment Professional Learning

Hosted by Joondalup Education Support Centre (JESC)

What is the Foundational Skills Assessment?

Originally developed in 2020 and now used in many schools with over 46 having received the full training across Western Australia. The Foundational Skills Assessment focuses on building students-capacity to become effective learners through 36 sequential skill areas. These skills are essential for supporting engagement with the curriculum by developing cognitive, apative, and social learning readiness.
